

Correction note

Heart Vessels Transplant 2025; 10: doi: 10.24969/hvt.2026.664

This is to notify correction for the article by Uvaidillaeva F, Tuhvatshin R, Kniazeva V, Omurkulova B. Association between disease duration, GH-IGF-1 axis markers, and linear growth in children with type 1 diabetes mellitus: a cross-sectional study. Heart Vessels Transplant 2026; 10: doi:10.24969/hvt.2026.642 published in June 2026 issue of Heart, Vessels and Transplantation.

Authors of the article reported correction for Table 2: the t test value for SDS insulin growth factor (IGF)-1 should read -3.22 instead of 1.360 and confidence intervals should read as (-0.046 – - 0.254) instead of (0.046 – 0.254).

Authors sincerely apologize for the unfortunate technical typo error that happened during transfer of data from statistical software to word application.

Authors carry full responsibility for correctness of the data presented in their study,

Gulmira Kudaiberdieva

Editor-in-Chief
